

About us

Quality is the pride of true craftsmanship. With love and passion for the final product, we work closely with u to develop innovative complete solutions. We understand our trade and have respect for the craft.

Thanks to the experience of our team, both in the bakery and on the machine side of things, we are familiar with the processes and challenges of our clients. We know more than anyone that fine confections, baked goods and pastries can be processed more effectively, more rapidly and more conveniently.

Why Rens Bakery Solutions?

- 'knows the ins and outs of the baking industry'.
- Experts in customization
- Out of the box engineering
- Continuous quality control
- Low Machine Cost of Ownership (TCO)

Rens Bakery Solutions is your partner when it comes to designing and optimizing industrial pastry solutions.

Out of respect for the craft, your product is always our starting point. We develop machines to improve, simplify and speed up every baking process.

RENS
Bakery Solutions

Our knowledge as a base for your solutions

Proactively thinking along with our clients to find effective and efficient solutions for production processes, makes us an exceptional partner. We achieve this by designing and building powerful, high-performance machines for industrial bakeries.

Our machines offer solutions for many different techniques:

- Cutting: ultrasonic, oscillating and much more
- Assembling
- Decorating
- Dosing
- Filling
- Handling
- Mixing
- Enrobing
- Packaging
- **Your challenge?**
